[www.audit.sa.gov.au](http://www.audit.sa.gov.au)

**To the Under Treasurer  
Department of Treasury and Finance**

## Opinion

I have audited the financial report of the Judges' Pensions Scheme for the financial year ended 30 June 2025.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the Judges' Pensions Scheme as at 30 June 2025, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The financial report comprises:

- an Income Statement for the year ended 30 June 2025
- a Statement of Financial Position as at 30 June 2025
- a Statement of Changes in Member Benefits for the year ended 30 June 2025
- a Statement of Changes in Equity for the year ended 30 June 2025
- a Statement of Cash Flows for the year ended 30 June 2025
- notes, comprising material accounting policy information and other explanatory information
- a Certificate from the Under Treasurer, Department of Treasury and Finance, Chief Executive, State Superannuation Office and the Director Finance, State Superannuation Office.

## Basis for opinion

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the Judges' Pensions Scheme. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

## **Responsibilities of the Chief Executive of State Superannuation Office for the financial report**

The Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Chief Executive, State Superannuation Office is responsible for assessing the Judges' Pensions Scheme's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the Scheme. The Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

## **Auditor's responsibilities for the audit of the financial report**

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987*, I have audited the financial report of Judges' Pensions Scheme for the financial year ended 30 June 2025.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Judges' Pensions Scheme's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with the Chief Executive, State Superannuation Office and the Under Treasurer about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue  
**Deputy Auditor-General**

24 September 2025

# Judges' Pension Scheme

## Notes to and forming part of the financial statements

### for the year ended 30 June 2025

---

## 1. Objectives and funding

### a) Judges' Pension Scheme

The Judges' Pension Scheme (the Scheme) is a compulsory superannuation scheme that exists pursuant to the *Judges' Pensions Act 1971* (the Act). The Act provides for the payment of pension benefits to former South Australian Judges and their families.

The Act provides for a pension to be paid to a Judge who resigns and is over the age of 60 years and has had not less than ten years judicial service or retires. A pension will also be paid to a Judge who resigns due to permanent disability or infirmity.

A Scheme member is entitled to a pension-based benefit determined in accordance with the Act to be a percentage of the member's salary immediately prior to retirement or resignation. The Scheme is non-contributory.

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis.

### b) Superannuation Funds Management Corporation of South Australia

Funds SA is a South Australian Government Entity established under the *Superannuation Funds Management Corporation of South Australia Act 1995*. Funds SA is responsible for the investment and management of the Scheme's funds pursuant to strategies formulated by Funds SA.

For further information on the investment of the Scheme's funds, reference should be made to the Judges' Pension Scheme Account (the Account) in the annual report of Funds SA. The investment assets, liabilities, income and expense contained in this financial statement are related to the investment activities of Funds SA.

### c) Funding Arrangements

Under Section 14(1)(b) of the Act, any payment to a member must be made out of the Consolidated Account (which is appropriated to the necessary extent) or from a Special Deposit Account held at the Department of Treasury and Finance (DTF) established for that purpose. During the period, payments were made from the Special Deposit Account.

Since 30 June 1994 the Government has undertaken a process of funding its accrued past service liabilities and the Scheme assets have broadly matched liabilities since 1997. The small size of the Scheme, the nature of the way member benefits accrue and variations in investment performance mean that deficits and surpluses will arise from year to year.

Employer contributions at a rate of 30 per cent of salary are paid to the Treasurer from SA Government entities to fund emerging superannuation liabilities. These contributions are deposited into the Scheme with \$6.88 million (2024: \$6.39 million) being credited during the year ended 30 June 2025.

## 2. Material accounting policies

### a) Basis of accounting

The financial statements have been prepared in accordance with relevant Australian Accounting Standards, including AASB 1056 Superannuation Entities and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the *Public Finance and Audit Act 1987* (PFAA), except as provided below.

These financial statements have been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

These financial statements are prepared on a 12-month reporting period, presented in Australian currency and all amounts have been rounded to the nearest thousand dollars (\$000).

The scheme is a not-for-profit entity for the purpose of preparing financial statements.

### b) New and amended accounting standards

The department has assessed the impact of new and changed Australian Accounting Standards and Interpretations not yet effective. The department does not expect a material impact from the adoption of these standards when they become effective.

# Judges' Pension Scheme

## Notes to and forming part of the financial statements

### for the year ended 30 June 2025

---

#### *AASB 18 Presentation and Disclosure in Financial Statements*

The standard applies to annual reporting periods beginning on or after 1 January 2027, with early adoption permitted. It introduces changes to the structure of the statement of profit or loss, including the classification of income and expenses into operating, investing, and financing categories. The standard also requires the presentation of new subtotals, such as operating profit or loss and profit or loss before financing and income taxes, and enhances disclosure requirements for management-defined performance measures (MPMs).

The department has assessed the impact of AASB 18 and does not expect a material impact from its adoption when it becomes effective.

No Australian Accounting Standards have been early adopted.

#### **c) Financial assets and liabilities**

##### **a) Classification**

The Scheme classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

##### *Financial assets and liabilities held for trading:*

These assets are acquired principally for the purpose of generating a profit from short-term fluctuation in price. All derivatives are classified as held for trading. Derivative financial instruments entered into by the Scheme do not meet the hedge accounting criteria as defined by AASB 9. Consequently hedge accounting is not applied by the Scheme.

##### *Financial instruments designated at fair value through profit or loss upon initial recognition:*

These financial assets are designated on the basis that they are part of a group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Scheme.

##### *Other financial liabilities*

This category includes all financial liabilities, other than those classified at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 15 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value.

##### **b) Recognition**

The Scheme recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the timeframe generally established by regulation or convention in the marketplace are recognised on the trade date, i.e. the date that the Scheme commits to purchase or sell the asset.

##### **c) Initial recognition**

Financial assets and financial liabilities at fair value through profit or loss are recorded in the Statement of Financial Position at fair value. All transaction costs for such instruments are recognised directly in the Income Statement.

Receivables and financial liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Scheme recognises the difference in the Income Statement, unless otherwise specified.

##### **d) Subsequent measurement**

After initial measurement, the Scheme measures investments at fair value through profit or loss. Subsequent changes in the fair value of those investments are recorded as 'changes in assets measured at fair value' through the Income Statement. Interest earned is recorded in 'Interest revenue'.

**Judges' Pension Scheme**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2025*

---

**e) Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Scheme.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Scheme uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. Refer to financial statement note 4.

**f) Cash and cash equivalents**

Cash and short-term deposits in the Statement of Financial Position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and short term deposits as defined above.

**g) Receivables and payables**

Receivables are carried at nominal amounts due that approximate fair value. Receivables are normally settled within 30 days. Payables are carried at nominal amounts that approximate fair value, are unsecured and are normally settled within 15 days from the date of the invoice or date the invoice is first received, as per Treasurer's Instruction 11. They represent liabilities for goods and services provided to the Scheme prior to the end of the financial year that are unpaid when the Scheme becomes obliged to make future payments in respect of the purchase of these goods or services.

**h) Benefits payable**

Benefits payable are valued at fair value and relate to pension payments payable on or prior to 30 June 2025 but paid after the end of financial year.

**i) Revenue recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Scheme and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The specific recognition criteria described below must also be met before revenue is recognised:

*Changes in fair values*

Changes in the fair value of investments invested with Funds SA are calculated as the difference between the fair value at sale, or at balance date, and the fair value at the previous valuation point. All changes are recognised in the Income Statement.

*Interest*

Interest revenue on cash and other financial assets carried at fair value is recorded according to the terms of the contract and recognised in the Income Statement.

## **Judges' Pension Scheme**

### **Notes to and forming part of the financial statements**

*for the year ended 30 June 2025*

---

#### **j) Taxation**

The Scheme is a constitutionally protected superannuation fund in terms of Section 295-15 of the *Income Tax Assessment Act 1997*, Regulation 995-1.04 (Schedule 4) and is exempt from income tax. Therefore no income tax has been brought to account in this financial statement.

#### **k) Goods and services tax (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except:

- when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable, or
- when receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the Statement of Financial Position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the ATO.

Cash flows are included in the Statement of Cash Flows on a gross basis. The GST component of cash flows arising from investing activities, which is recoverable from, or payable to the ATO are classified as operating cash flows.

#### **l) Foreign currency**

The functional and presentation currency of the Scheme is Australian Dollars, the currency of the primary economic environment in which the Scheme operates. The Scheme's performance is evaluated and its liquidity managed in Australian Dollars. Therefore, the Australian Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

#### **m) Investments**

Funds SA provides investments measured at fair value. Below is the basis for valuation of these investments.

##### **i) Inflation Linked Securities Tax-Exempt**

The Inflation Linked Securities Tax-Exempt portfolio invests in discretely managed portfolios and internal inflation linked securities. Discretely managed portfolios are invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Internally managed inflation linked securities, the returns of which are linked to movements in either the Consumer Price Index or Average Weekly Earnings, have been valued using the discounted cash flow method. The valuation as at balance date was performed by an independent valuer.

##### **ii) Property Tax-Exempt**

The Property Tax-Exempt portfolio comprises the below:

##### **Unlisted property vehicles**

The unlisted property vehicles portfolio is invested and managed by external managers. Investments in these vehicles have been valued in accordance with the valuations supplied by the managers.

##### **iii) Australian Equities Tax-Exempt**

The Australian Equities Tax-Exempt portfolio comprises investments in listed Australian equities, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

##### **iv) International Equities Tax-Exempt**

The International Equities Tax-Exempt portfolio comprises investments in equities listed on international share markets, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

## Judges' Pension Scheme

### Notes to and forming part of the financial statements

for the year ended 30 June 2025

---

#### v) Fixed Interest

Fixed Interest portfolios have exposure to domestic and global debt instruments and are managed by external managers. The custodian appointed to hold the assets has valued the portfolio using market prices applicable at balance date.

#### vi) Diversified Strategies Growth Tax-Exempt

The Diversified Strategies Growth Tax-Exempt asset class incorporates two sub sectors:

##### *Private Markets Tax-Exempt*

The Private Markets Tax-Exempt portfolio comprises investments in Australian and international private equity funds, which are invested and managed by external managers. The valuation of private equity investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Both Australian and international private equity valuations are generally in accordance with the International Private Equity and Venture Capital Valuation Guidelines. Private equity fund investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

##### *Core Infrastructure Tax-Exempt*

The Core Infrastructure Tax-Exempt portfolio comprises investments in Australian and international infrastructure pooled funds, which are invested and managed by external managers. The valuation of these investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

#### vii) Alternatives

The Alternatives asset class incorporates two sub sectors:

##### *Defensive Alternatives*

The Defensive Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

##### *Growth Alternatives*

The Growth Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

#### viii) Credit

The Credit asset class incorporates two sub sectors:

##### *Credit*

The Credit portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

##### *Investment Grade Credit*

The Investment Grade Credit portfolio comprises investments in discretely managed investments and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

## Judges' Pension Scheme

### Notes to and forming part of the financial statements

#### for the year ended 30 June 2025

---

#### *ix) Cash*

The Cash portfolio comprises investments in a discretely managed investment which is managed by an external manager and is valued by the custodian appointed to hold the assets using market prices applicable at balance date. Deposits at call have been valued on the basis of principal plus accrued interest.

#### ***n) Operation of investment portfolio***

Funds SA is responsible for the investment and management of the Scheme's funds pursuant to strategies formulated by Funds SA (refer Note 1 (b)). Funds SA operates a multi-layered notional unitisation structure to facilitate the administration of different investment strategies applying to the various public sector superannuation funds. For the year ending 30 June 2025, funds of the Scheme were invested in the DB High Growth Strategy.

Reference should be made to Funds SA's Annual Report for the strategic asset allocations applying to the DB High Growth Strategy discussed in the preceding paragraph.

#### ***o) Member liabilities***

Member liabilities are measured at the amount of accrued benefits.

Defined benefit member liabilities measured as the amount of a portfolio of investments that would be needed, as at the reporting date, to yield future net cash inflows that would be sufficient to meet accrued benefits at the date they are expected to fall due.

#### ***p) Significant accounting judgements, estimates and assumptions***

The preparation of the Scheme's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary, comparative information has been presented to be consistent with current period disclosures.

#### *Fair value of investments*

When the fair values of the investments recorded in the Statement of Financial Position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including a discounted cash flow model. The inputs in these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required to establish fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of these investments.

It is also important to note that fair values are provided by Funds SA.

#### *Valuation of defined benefits member liabilities*

The amount of member liabilities in relation to defined benefits has been determined using actuarial valuation techniques and assumptions. An actuarial valuation involves making various assumptions about the future. Actual developments in the future may differ from these assumptions. The assumptions include member turnover, future investment returns, pension indexation rates, mortality rates and future salary increases. Due to the complexities involved in the valuation and its long term nature, defined benefit member liabilities are highly sensitive to changes in these assumptions. Assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, the actuary considers the expected long term returns on each asset class and return the objective set by Funds SA for the investments in respect of defined benefit member liabilities.

The mortality rates for pensioners are based on the Mercer 2012-17 Pensioner Mortality Investigation. The assumed future improvements in mortality rates reflect the short term (25-year experience) factors derived by the Australian government Actuary and published in the Australian Life tables 2015-17.

The long-term future salary growth assumption is based on 1.0 per cent per annum real growth (i.e. salary increases in excess of inflation) over the longer term.

## Judges' Pension Scheme

### Notes to and forming part of the financial statements

for the year ended 30 June 2025

---

#### q) Climate change financial risks

In November 2021, Australian Prudential Regulation Authority (APRA) released Prudential Practice Guide CPG 229 Climate Change Financial Risks. CPG 229 does not impose new requirements in relation to climate risks, rather, it supports compliance with APRA's existing risk management and governance requirements and guidance. Super SA consider financial risks of climate change, including physical climate risks, transition climate risks, and liability risks as part of the overall Super SA Risk Management Strategy.

Additionally, as identified in Note 1(b) above, the investments of the scheme are managed by Funds SA. Funds SA, in turn, is committed to risk management and maintains a rigorous and proactive approach to identifying and managing investment risk, including the risks associated with climate change. Funds SA has developed a Climate Change Position Statement, Climate Risk Response Plan and Climate Report to support its approach in this area. Please refer to the Funds SA website under publications for further detail.

### 3. Defined benefit member liabilities

The Scheme uses the services of an actuary to calculate the present value of accrued defined benefit liabilities based on various future assumptions. The latest full actuarial valuation was performed as at 30 June 2024 by Ms E Conway, FIAA of Mercer Consulting (Australia) Pty Ltd. A full actuarial valuation will be conducted as at 30 June 2025, with results reported in August 2025.

	2025	2024
Accrued benefits	294 219	282 189
<b>Total defined member benefits</b>	<b>294 219</b>	<b>282 189</b>

The actuarial valuation of member liabilities reflects the actuarial assessment of the benefits accrued up to the reporting date and payable to members on retirement, resignation, death and disability. The accrued liabilities are the present values of expected future benefit payments arising from membership of the Scheme up to 30 June 2025.

The expected future benefit payments have been determined using the assumptions relating to mortality, disability, withdrawal, preservation and retirement adopted at the SA Superannuation Scheme triennial review as at 30 June 2025. The actuarial valuation of member liabilities of the Scheme is undertaken annually, as at the end of each financial year.

The key assumptions used to determine the values of accrued benefits were:

- The future rate of investment earnings (net of investment taxes and fees): 7.0 per cent per annum (2024: 7.0 per cent)
- The long-term future rate of salary growth: 3.5 per cent per annum (2024: 3.5 per cent)
- Long term inflation (CPI): 2.5 per cent per annum (2024: 2.5 per cent).

The Scheme uses sensitivity analysis to monitor the potential impact of changes to key variables about which assumptions need to be made. The Scheme has identified two assumptions (being the discount rate and the rate of salary adjustment) for which changes are reasonably possible that would have a material impact on the amount of the defined benefit member liabilities.

The assumed discount rate has been determined by reference to the expected long term returns on each asset class and return objective set by Funds SA for the investments in respect of defined benefit member liabilities.

The other variables about which assumptions have been made in measuring defined benefit member liabilities and for which changes are not considered reasonably possible, or for which reasonably possible changes would not be expected to have a material effect, include: mortality rates and resignations. However, changes to the pension indexation rates are considered reasonably possible, and are expected to have a material impact on the defined benefits member liabilities.

**Judges' Pension Scheme**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2025*

The following table outlines the sensitivity of key assumptions provided by the scheme actuary on the discount rate, salary increase rate, CPI pension increase rate and mortality assumptions:

	<b>Member liability result \$'000</b>	<b>Change in member benefit liability \$'000</b>	<b>Change in member benefit liability %</b>
<b>2024-25</b>			
<b>Scenario</b>			
Base Case	294 219		
Discount Rate Plus 0.5%	280 714	(13 505)	(4.6)
Discount Rate Less 0.5%	308 896	14 677	5.0
Salary Increase Rate Plus 0.5%	295 985	1 766	0.6
Salary Increase Rate Less 0.5%	292 507	(1 712)	(0.6)
Pension Increase Rate Plus 0.5%	306 926	12 707	4.3
Pension Increase Rate Less 0.5%	282 338	(11 881)	(4.0)
Mortality Rate Plus 10%	287 255	(6 964)	(2.4)
Mortality Rate Less 10%	301 956	7 737	2.6

	<b>Member liability result \$'000</b>	<b>Change in member benefit liability \$'000</b>	<b>Change in member benefit liability %</b>
<b>2023-24</b>			
<b>Scenario</b>			
Base Case	282 189		
Discount Rate Plus 0.5%	269 215	(12 974)	(4.6)
Discount Rate Less 0.5%	296 283	14 094	5.0
Salary Increase Rate Plus 0.5%	283 903	1 714	0.6
Salary Increase Rate Less 0.5%	280 527	(1 662)	(0.6)
Pension Increase Rate Plus 0.5%	294 372	12 183	4.3
Pension Increase Rate Less 0.5%	270 792	(11 397)	(4.0)
Mortality Rate Plus 10%	275 538	(6 651)	(2.4)
Mortality Rate Less 10%	289 571	7 382	2.6

	<b>2025 \$'000</b>	<b>2024 \$'000</b>
Vested benefits	247 034	243 155
<b>Total vested benefits</b>	<b>247 034</b>	<b>243 155</b>

Vested benefits are benefits that are not conditional upon continued membership of the Scheme, or any factor other than resignation from the Scheme. Vested Benefits include benefits which members are entitled to receive had they terminated their membership as at the reporting date.

**4. Fair value of financial instruments**

***Classification of financial instruments under the fair value hierarchy***

AASB 13 requires disclosures relating to fair value measurements using a three-level fair value hierarchy. The level within which the fair value measurement is categorised in its entirety is determined based on the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability. The following table shows financial instruments recognised at fair value, categorised between those whose fair value is based on:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Valuations are the responsibility of the Treasurer. The valuation of investments is performed daily and are subject to quality assurance procedures.

After the checks above have been performed the Treasurer considers the valuation results, including assumptions used in the valuations.

The Treasurer also considers the appropriateness of the valuation methods and inputs and may request that alternative valuation methods are applied to support the valuation arising from the method chosen.

***Valuation technique***

The Scheme's investments are not quoted in an active market. To ensure fair value can be determined, the Scheme's investment manager, Funds SA, applies due diligence and considers valuation techniques and inputs used in valuing the funds, prior to investing. In measuring fair value, consideration is given to the amounts for which financial assets can be sold, excluding transaction costs. The Scheme classifies these funds as Level 2.

	<b>2025</b>	<b>2024</b>
	<b>\$'000</b>	<b>\$'000</b>
<b><i>Financial assets at fair value through profit or loss - Level 2*</i></b>		
*Level 1 and level 3 are not relevant to the scheme		
Unlisted managed investment schemes	350 872	332 720
<b>Funds SA</b>	<b>350 872</b>	<b>332 720</b>

**5. Movement in the value of investments**

	<b>2025</b>	<b>2024</b>
	<b>\$'000</b>	<b>\$'000</b>
Investments at 1 July	332 720	322 531
Change in value of investments	18 152	10 189
<b>Investments at 30 June</b>	<b>350 872</b>	<b>332 720</b>

**6. Receivables**

	<b>2025</b>	<b>2024</b>
	<b>\$'000</b>	<b>\$'000</b>
Refund from ATO for GST	1	1
Interest receivable	1	1
<b>Total receivables</b>	<b>2</b>	<b>2</b>

**Judges' Pension Scheme**  
**Notes to and forming part of the financial statements**

---

**7. Payables**

	<b>2025</b>	<b>2024</b>
	<b>\$'000</b>	<b>\$'000</b>
Audit fees	8	7
Administration expenses	11	9
<b>Total payables</b>	<b>19</b>	<b>16</b>

**8. Investment expenses**

	<b>2025</b>	<b>2024</b>
	<b>\$'000</b>	<b>\$'000</b>
Investment expenses	896	1 227
<b>Total investment expenses</b>	<b>896</b>	<b>1 227</b>

Direct Investment expenses comprise fees paid to Funds SA. Funds SA advises the amount applicable to the Scheme based on the Scheme's funds under management.

**9. Administration expenses**

	<b>2025</b>	<b>2024</b>
	<b>\$'000</b>	<b>\$'000</b>
Administration expenses <sup>(i)</sup>	110	98
Other expenses <sup>(ii)</sup>	7	7
<b>Total administration expenses</b>	<b>117</b>	<b>105</b>

- (i) Administration Expenses comprise the costs incurred by the Department of Treasury and Finance in administering the Scheme, which are met in the first instance from the Department of Treasury and Finance Operating Account. The Department of Treasury and Finance seeks reimbursement from the Scheme.
- (ii) Other expenses include Auditor's remuneration. Refer Note 10.

**10. Auditors' remuneration**

	<b>2025</b>	<b>2024</b>
	<b>\$'000</b>	<b>\$'000</b>
Audit fees paid or payable	7	7
<b>Total auditors' remuneration</b>	<b>7</b>	<b>7</b>

Audit fees paid or payable to the Audit Office of South Australia relating to work performed under the PFAA were \$7,300 GST exclusive (2024: \$7,300). The Audit Office of South Australia uses the services of Ernst and Young for the audit. No other services were provided by the Audit Office of South Australia.

**11. Reconciliation of cash and cash equivalents**

For the purpose of the Statement of Cash Flows, cash and cash equivalents includes cash on hand and deposits with the Department of Treasury and Finance. Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows. Cash at the end of the reporting period as shown in the Statement of Cash Flows is reconciled to the related item in the Statement of Financial Position as follows:

	<b>2025</b>	<b>2024</b>
	<b>\$'000</b>	<b>\$'000</b>
<b>Reconciliation of cash and cash equivalents at the end of the reporting period</b>		
Cash and cash equivalents	372	248
<b>Total cash and cash equivalents</b>	<b>372</b>	<b>248</b>
 <b>Reconciliation of net cash from operating activities</b>		
Net operating result	6 074	(3 275)
 <b>Adjustments for:</b>		
Change in investments measured at fair value	(31 128)	(22 374)
Investment expenses	896	1 227
Decrease/(Increase) in receivables	-	1
Increase/(Decrease) in payables	3	(1)
Allocation to members' accounts	24 057	24 334
<b>Net cash used in operating activities</b>	<b>(98)</b>	<b>(88)</b>

**12. Financial risk management objectives and policies**

The Scheme's investments are managed by Funds SA predominantly by the appointment of investment managers as determined by the Funds SA Board. Each investment manager is required to invest the assets in accordance with the terms of a written mandate. The Funds SA Board has determined that the appointment of these managers is appropriate for the Scheme and is in accordance with the Scheme's investment strategy. The Funds SA Board obtains regular reports from each manager on the nature of the investments made on its behalf and the associated risks.

The allocation of assets between the various types of financial instruments is determined by the Funds SA Board. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds SA Board on a regular basis.

The Scheme's investing activities expose it to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk.

The nature and extent of the financial instruments employed by the Scheme are discussed below. This note presents information about the Scheme's exposure to each of the above risks, the Scheme's objectives, policies and processes for measuring and managing risk.

The Funds SA Board has overall responsibility for the establishment and oversight of the Scheme's investment risk management framework.

The Scheme's investment risk management policies are established to identify and analyse the risks faced by the Scheme, including those risks managed by the Scheme's investment managers, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Scheme's activities. The Scheme receives regular reports from Funds SA concerning compliance with investment objectives.

**Judges' Pension Scheme**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2025*

---

**a) Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Scheme's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub-markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

*i) Currency risk*

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of a change in foreign exchange rates.

The Scheme's currency risk is managed by Funds SA as investments include assets denominated in foreign currencies.

Funds SA strategic policy for the management of its foreign currency exposure is as follows:

- foreign currency exposures in the Private Markets Tax-Exempt, Private Markets Taxable, Core Infrastructure Tax- Exempt, Core Infrastructure Taxable, Credit, Long Term Fixed Interest and Inflation Linked Securities Taxable asset classes are economically hedged to Australian dollars, and
- foreign currency exposures over the developed markets component of the International Equities Tax-Exempt, International Equities Taxable, International Equities Passive Tax-Exempt and International Equities Passive Taxable asset classes are economically hedged to Australian dollars.

For the purpose of managing foreign currency risk, within defined constraints, the exposure to foreign currency can be varied from the strategic policy stated above, by Funds SA.

*ii) Interest rate risk*

Interest rate risk is the risk that a movement in interest rates will cause the value of fixed interest securities to deviate from expectations.

The Scheme's interest rate risk is managed by Funds SA, as investments include fixed interest securities.

Funds SA manages interest rate risk through:

- ensuring asset allocations of different investment products are consistent with the time horizon of each, and
- the use of specialist external investment managers to manage Funds SA's cash and fixed income portfolios.

*iii) Other market price risk*

Other market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer, or factors affecting all instruments traded in the market.

As the Scheme's financial instruments are valued at fair value with changes in fair value recognised in the Income Statement, all changes in market conditions will directly affect investment revenue.

The Scheme's other market price risk is managed by Funds SA, as investments include financial instruments exposed to market prices.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and submarkets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

**Judges' Pension Scheme**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2025*

---

*iv) Investments sensitivity analysis*

The Funds SA Board has determined that its forecast risk/return profile provides a reasonable measure of the sensitivity of the expected returns in the investment for the year ahead. The following tables show the standard deviation around expected nominal returns for DB High Growth Strategy.

The statistics shown below are averages calculated over 10 years, net of investment management fees and gross of tax. These investment statistics have zero per cent tax rate applied and exclude franking credits.

	<b>Expected Average Return %</b>	<b>Market Risk %</b>	<b>Average Funds Under Management \$'000</b>	<b>Potential Impact of Market Risk (+/-) on Income Statement \$'000</b>
<b>2024-25</b>				
<b><i>Investment option:</i></b>				
DB High Growth Strategy	7.5	9.9	341 790	33 837
<b>2023-24</b>				
<b><i>Investment option:</i></b>				
DB High Growth Strategy	8.0	11.2	327 844	36 718

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates, and equity prices. Market risk is minimised through ensuring that all investment activities are undertaken in accordance with established mandate limits and investment strategies.

Market risk is a useful historical measure of the variability of returns earned by an investment portfolio. The market risk shown above represents the range at which actual future returns are expected to occur either side of the nominal return approximately two thirds of the time.

The dollar value of the potential impact on the Income Statement arising from the market risk is indicative only. The impacts are not additive across investment asset classes, as each asset class operates in different markets and is subject to different conditions.

Actual movements in returns may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the underlying trusts invest. As a result, historic variations in rates of return are not a definitive indicator of future variations in rates of return.

**b) Credit risk**

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Scheme.

The value of financial assets, included in the Statement of Financial Position represents the Scheme's maximum exposure to credit risk in relation to those assets. The Scheme does not have any significant exposure to any individual counterparty or industry. The credit risk is monitored by Funds SA through ongoing reviews of the investment managers.

The Scheme does not have any assets which are past due or impaired and there is no concentration of credit risk.

**c) Liquidity risk**

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due. The Scheme's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its payment of benefits to members and liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Scheme's reputation.

## Judges' Pension Scheme

### Notes to and forming part of the financial statements

for the year ended 30 June 2025

For the Scheme's investments, Funds SA manages liquidity risk as follows:

- by giving careful consideration to the expected net cash redemption requirements of Funds SA's clients. The allocation to cash in the strategic asset allocation of each investment product is set at a level sufficient to manage expected cash redemptions
- a large proportion of each investment product is invested in highly liquid investments such as actively traded equities, unit trusts or securities with short-term maturities
- reporting and monitoring the liquidity of the fund on a daily basis to ensure prospective client cash outflows and switches can be met
- by undertaking portfolio management and rebalancing activities, and
- by undertaking regular stress testing on liquidity positions to identify sources of liquidity strain before they are realised.

For the Scheme itself, the liquidity position is monitored daily. The Scheme's cash and liquidity policy is to have sufficient cash balances to meet anticipated weekly benefit payments, expenses and investing activities.

The following tables summarise the contractual maturity profile of the Scheme's financial liabilities based on the earliest date on which the Scheme can be required to pay. The amounts in the table are the contractual undiscounted cash flows.

	Less than 3 months	Total contractual cash flows	Carrying amount liabilities
	\$'000	\$'000	\$'000
<b>2024-25</b>			
Payables <sup>(i)</sup>	19	19	19
Vested benefits <sup>(ii)</sup>	247 034	247 034	247 034
<b>Total</b>	<b>247 053</b>	<b>247 053</b>	<b>247 053</b>
	Less than 3 months	Total contractual cash flows	Carrying amount liabilities
	\$'000	\$'000	\$'000
<b>2023-24</b>			
Payables <sup>(i)</sup>	16	16	16
Vested benefits <sup>(ii)</sup>	243 155	243 155	243 155
<b>Total</b>	<b>243 171</b>	<b>243 171</b>	<b>243 171</b>

(i) Payable amounts disclosed here exclude amounts relating to constructive obligations and statutory payables (e.g. Commonwealth, State and Local Government taxes, fees and charges, Auditor-General's Department audit fees).

(ii) Vested benefits have been included in the "Less than 3 Months" column, as this is the amount that members could call upon as at balance date. This is the earliest date on which the Scheme can be required to pay members vested benefits, however, members may not necessarily call upon amounts vested to them during this time.

The Fund manages its obligation to pay the defined benefit component on an expected maturity basis based on management's estimates of when such funds will be drawn down by members. The Fund considers it is highly unlikely that all defined benefit members will request to roll over their superannuation fund account at the same time.

#### d) Derivative financial instruments

Derivatives can be defined as financial contracts whose value depends on, or is derived from, assets, liabilities, reference rates or indices. Funds SA uses derivatives to manage portfolio risk and to facilitate the implementation of investment strategies efficiently and cost effectively. Funds SA uses a variety of derivative instruments, such as over the counter swap agreements, forward rate agreements, futures and options.

Derivatives are an authorised investment within certain mandates managed by Funds SA's external investment managers for the purposes described above.

**Judges' Pension Scheme**  
**Notes to and forming part of the financial statements**  
*for the year ended 30 June 2025*

---

**13. Segment information**

The Scheme operates in one reportable segment, being the provision of benefits to members. The Scheme also operates from one reportable geographic segment, being Australia, from where its activities are managed. While the Scheme operates from Australia only, the Scheme, through its investment manager Funds SA, has investment exposures in different countries and across different industries.

**14. Related parties**

***a) Key management personnel***

The key management personnel of the Scheme includes the Treasurer, the Under Treasurer, Department of Treasury and Finance, the Chief Executive and six members of the Executive Leadership Team, Super SA, who have responsibility for the strategic direction and management of the Scheme.

***b) Compensation***

All key management personnel are compensated by the Department of Treasury and Finance therefore their compensation is disclosed in the respective financial reports.

***c) Transactions with key management personnel and other related parties***

There were no transactions with key management personnel or related parties.

***d) Transactions with other government entities***

There were no significant transactions with government entities other than those disclosed elsewhere in the financial statements.

**15. Events after the reporting period**

There were no significant events after the reporting period.

**Judges' Pension Scheme**
